Subject Index / Index des articles par subjet

ADMINISTRATION

1. The challenge of managing patient cancellation and non-attendance in an outpatient physiotherapy clinic
   El-Tantawy C, Di Re A, Frare G 52:163-167 Spr 2000
2. The impact of suffering in physiotherapy practice: Cost containment issues
   Clarke BM 52:25-32 Win 2000

CANADIAN PHYSIOTHERAPY ASSOCIATION

3. Tri-Joint Congress 2000 - Enid Graham Memorial Lecture
   One voice in the crowd
   Bainbridge L 52:182-187 Sum 2000
4. Tri-Joint Congress 2000 - President's Address
   Leadership within our profession
   Lafoley B 52:181 Sum 2000

Viewpoint

5. It's time to encourage mentorship throughout our profession
   Il est temps d'encourager le mentorat à l'échelle de toute notre profession
   Lafoley B 52:93-95 Spr 2000
6. Participation in student education is an essential part of our professional responsibility
   La participation à la formation des étudiants constitue un élément de notre responsabilité professionnelle
   Lafoley B 52:5-7 Win 2000
7. Where would we be without CPA?/
   Oú en serions-nous san l'ACP
   Lafoley B 52:261-263 Fall 2000

CANCER

8. Physical activity in the primary prevention of estrogen-related cancers: is it effective?
   Campbell KL, Harris SR 52:198-207 Sum 2000

CEREBROVASCULAR DISORDERS

Stroke

9. Measuring clinically-important change with the activity inventory of the Chedoke McMaster Stroke Assessment
   Huijbregts MPJ, Gowland C, Gruber RA 52:295-304 Fall 2000

EATING DISORDERS

10. Are Physical therapy students at an increased risk of developing the symptomatology associated with eating disorders?
    Curran, MC Boland, FJ 52:10-15 Win 2000

EDUCATION

11. Application of motor learning principles: the physiotherapy client as a problem-solver 1. Concepts
    Wishart LR, Lee TD, Janzen Ezekiel H, Marley TL, Lehto NK 52:229-232 Sum 2000
12. Application of motor learning principles: the physiotherapy client as a problem solver II. Scheduling practice
    Marley TL, Janzen Ezekiel H, Lehto NK, Wishart LR, Lee TD 52:315-320 Fall 2000
13. Are Physical therapy students at an increased risk of developing the symptomatology associated with eating disorders?
    Curran, MC Boland, FJ 52:10-15 Win 2000
14. Critical thinking dispositions of undergraduate physical therapy students: Implications for instruction and counselling
    Bartlett DJ, Cox PD 52:16-24 Win 2000
15. Evolution of the description of Physical Therapy entry-level practice
    Vibert J, Beggs C, Glover Takahashi S 52:274-278 Fall 2000
16. Influences on physiotherapy students' choices to pursue learning related to ethics in a problem-based curriculum
    Solomon P, Geddes EL 52:279-285 Fall 2000

EQUILIBRIUM

17. Computerized dynamic posturography in rehabilitation: Has its reliability and validity been established?
    Harstall C 52:56-63 Win 2000
18. Rehabilitation of low back pain in physiotherapy: Is postural control important?
    Casimiro L, Sveistrup H 52:305-311 Fall 2000

EQUIPMENT

19. It's the little things that matter! Overshoes and independence in any weather
    Walker J 52:264-265 Fall 2000
20. What consumers think: Standing frames for children with Spina Bifida
    Owen JL, Ross M, Simila I, Nauman S 52:96 Spr 2000

20. What consumers think: Standing frames for children with Spina Bifida
    Owen JL, Ross M, Simila I, Nauman S 52:96 Spr 2000

ETHICS

21. Influences on physiotherapy students' choices to pursue learning related to ethics in a problem-based curriculum
Solomon P, Geddes EL 52:279-285 Fall 2000

EVIDENCE-BASED PRACTICE

22. Diagnosing patient change: impact of reassessment interval
Stratford PW 52:225-228 Sum 2000
23. Measuring clinically-important change with the activity inventory of the Chedoke McMaster Stroke Assessment
Huijbregts MPJ, Gowland C, Gruber RA 52:295-304 Fall 2000
24. Physical activity in the primary prevention of estrogen-related cancers: is it effective?
Campbell KL, Harris SR 52:198-207 Sum 2000
25. The test-retest reliability of a novel functional test: The lateral hop for distance
Vandermeulen DM, Birmingham TB, Forwell LA 52:50-55 Win 2000

EXERCISE

26. A key informant survey of osteoporosis exercise programs in Ontario
McGilvray L, Cott CA 52:146-152 Spr 2000

FOOT

27. The effectiveness of functional foot orthoses as a treatment for patellofemoral stress syndrome: The clients' perspective
Amell TK, Stothart JP, Kumar S 52:153-157 Spr 2000

HEART

28. Preoperative physiotherapy teaching in paediatric cardiac patients
Carmini V, Damignani R, Brooks D, Braveline C 52:312-314 Fall 2000

HIV DISEASE

29. Shifting perspectives: reconceptualizing HIV Disease in a rehabilitation framework
Nixon CA, Nixon S 52:189-197 Sum 2000

JOINTS

30. Validation of the LEFS on patients with total joint arthroplasty
Stratford PW, Binkley JM, Watson J, Heath-Jones T 52:97-105 Spr 2000

Knee

31. Inpatient rehabilitation after total knee arthroplasty: Risk factors for admission and effects of treatment
MacDermid JC, O'Callaghan C 52:45-49 Win 2000
32. Relationship between maximal isometric knee extensor and flexor strength measures, age and walking speed of healthy men and women ages 18-74
Haghani H, Marks R 52:33-38 Win 2000
33. Survey of knee brace usage following anterior cruciate ligament reconstruction
Rankin AE, Kramer JF, Fowler PJ, Kirkley A 52:215-224 Sum 2000

LEG

34. The test-retest reliability of a novel functional test: The lateral hop for distance
Vandermeulen DM, Birmingham TB, Forwell LA 52:50-55 Win 2000

MOTOR SKILLS

35. Application of motor learning principles: the physiotherapy client as a problem-solver 1. Concepts
Wishart LR, Lee TD, Janzen Ezekiel H, Marley TL, Lehto NK 52:229-232 Sum 2000
36. Application of motor learning principles: the physiotherapy client as a problem solver II. Scheduling practice
Marley TL, Ezekiel HJ, Lehto NK, Wishart LR, Lee TD 52:315-320 Fall 2000

MUSCLE

37. Abdominal muscle EMG activity during trunk flexion exercises: partial sit-up vs. ab roller curl-up
Kinney LaPier T, Creelman J, Cunningham D, Moore J, Whiles J 52:158-162 Spr 2000

NECK

Range of Motion

38. Intra- and inter-tester reliability and range of motion of the neck
Peolsson A, Hedlund R, Ertzgaard S, ?berg B 52:233-242 Sum 2000

Whiplash Injuries

39. Effectiveness of progressive strength resistance training for whiplash: A pilot study
Goodman R, Frew LJ 52:211-214 Sum 2000
40. A systematic overview of the effectiveness of physical therapy intervention on soft tissue neck injury following trauma
Magee DJ, Oborn-Barrett E, Turner S, Fenning N 52:111-130 Spr 2000

NEUROLOGY

41. Physical function outcome measurement in acute neurology
Barclay-Goddard R 52:138-145 Spr 2000

Brain Injuries

42. Reliability testing of a Timed Functional Performance Protocol for adults with mild traumatic brain injury
Orest MR, Blaisdell KA 52:131-137 Spr 2000

ORTHOPAEDICS

43. Evaluation of fracture clinic attendance as a method of orthopaedic outpatient waiting list reduction
Christie HJ, Moyer S 52:106-110 Spr 2000

OSTEOPOROSIS

44. A key informant survey of osteoporosis exercise programs in Ontario
McGilvray L, Cott CA 52:146-152 Spr 2000
45. The reliability of five clinical postural alignment measures for women with osteoporosis
Arnold CM, Beatty B, Harrison EL, Olszynski W 52:286-294 Fall 2000

PAIN

46. Effect of McConnell taping on perceived pain and knee extensor torques during isokinetic exercise performed by patients with patellofemoral pain syndrome
Handfield T, Kramer J 52:39-44 Win 2000
47. The impact of suffering in physiotherapy practice: Cost containment issues
Clarke BM 52:25-32 Win 2000
48. Neuroplasticity and the development of persistent pain
Harman K 52:64-71 Win 2000

Back

49. Rehabilitation of low back pain in physiotherapy: Is postural control important?
Casimiro L, Sveistrup H 52:305-311 Fall 2000

Shoulder

50. Comparative effectiveness of ultrasound and transcutaneous electrical stimulation in treatment of periarticular shoulder pain
Shehab D, Adham N 52:208-210 Sum 2000
51. A multi-centre, randomized controlled trial of the effectiveness of positioning on quadriplegic shoulder pain
Crowe J, MacKay Lyons M, Morris H 52:266-273 Fall 2000

PAEDIATRICS

52. Preoperative physiotherapy teaching in paediatric cardiac patients
Carmini V, Damignani R, Brooks D, Braveline C 52:312-314 Fall 2000

POSTURE

53. Rehabilitation of low back pain in physiotherapy: Is postural control important?
Casimiro L, Sveistrup H 52:305-311 Fall 2000

PREOPERATIVE CARE

54. Preoperative physiotherapy teaching in paediatric cardiac patients
Carmini V, Damignani R, Brooks D, Braveline C 52:312-314 Fall 2000

PROFESSIONALISM

55. It's time to encourage mentorship throughout our profession
Il est temps d'encourager le mentorat à l'échelle de toute notre profession
Lafoley B 52:93-95 Spr 2000
56. Leadership within our profession
Lafoley B 52:181 Sum 2000
57. One voice in the crowd
Bainbridge L 52:182-187 Sum 2000
58. Participation in student education is an essential part of our professional responsibility
La participation à la formation des étudiants constitue un élément de notre responsabilité professionnelle
Lafoley B 52:5-7 Win 2000

SUFFERING

59. The impact of suffering in physiotherapy practice: Cost containment issues
Clarke BM 52:25-32 Win 2000

TENS (Transcutaneous Electric Nerve Stimulation)

60. Comparative effectiveness of ultrasound and transcutaneous electrical stimulation in treatment of periarticular shoulder pain
Shehab D, Adham N 52:208-210 Sum 2000
